

Here are the materials you need for hosting

Pool sheet is above - please print out one for each table and tape it to the table. Print one for yourself.

Scoresheets are above - please print out 20 of them front and back. This way each match and deciding match are on one piece of paper. That is put "1 set scoresheet" on one side and then "2 set scoresheet" on the other side.

Libero Sheets are above - print out 10 of them and put half on one table and half on the other

Line Up Sheets are above - please print out 10 of them. Personally, I would hand one to each captain at the captain's meeting, so they have one for the day. But then put some cut up near the score board on each table. Definitely keep a few sheets for yourself.

Refs - Officials who will R1 and R2 will be coming and will check the nets. Please make sure someone from your team is available if they need any adjustments. The refs will bring the game balls and after the competition they will be yours to keep.

Your responsibilities:

- 1 - set up the courts
- 2 - print everything attached in the manner listed above
- 3 - have a ball pump available
- 4 - have 2 pens and 2 pencils at each table
- 5 - each court needs a score board
- 6 - you will keep track of every score for every set for all the matches and you will email them to me by Monday morning.
